MANAGED BUSINESS SERVICES

www.itectiyende.co.za

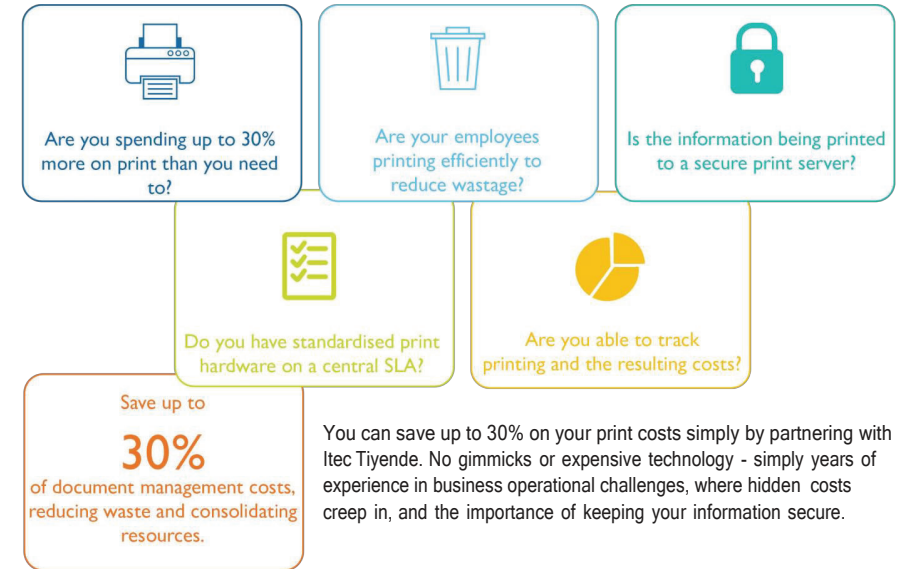

SIMPLER, SMARTER, SOLUTIONS

ITEC TIYENDE MANAGED PRINT SERVICES

Itec Tiyende is a Managed Print Service provider, managing your entire print infrastructure, including services, support, and supplies.

MANAGED PRINT SERVICES

At Itec Tiyende, we deliver simple, smart solutions that help you run your business more efficiently. Our ability to simplify your operations and reduce costs have made us a preferred technology partner to businesses and organisations across all sectors of the economy, including education, labour, big business and government.

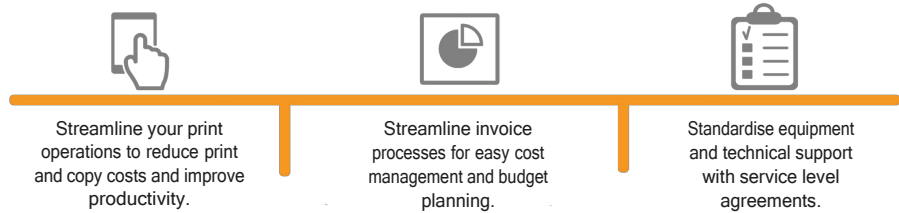

As part of the Itec Group, we're also one of the ICT industry's BEE leaders.

Level 1 B-BBEE certified and 135% BEE procurement level as Value Adding Supplier

Headed by Simbo Ntshinka. Itec Tiyende is 95% black-owned company incorporating 30% black women ownership

What sets us apart is our years of experience and our innovative, customised, solutions which has seen Itec Tiyende being awarded RT3 contracts for a number of government departments.

National Treasury
 Department of Justice
 National Health Laboratory Service (NHLS)
 Auditor General South Africa (AGSA)
 Education and Training Authority (ETDP SETA)
 Newcastle Municipality
 Gauteng Province Provincial Treasury

One of the key solutions we offer our government clients is Managed Print Services. We look forward to engaging with you further where we will share insightful information on how to save printing costs.

6 STEPS TO OPTIMISED PRINTING

Itec Tiyende has a proven 6-Step process to manage your print as a service

1 ASSESSMENT

Itec conducts an in-depth assessment of your print environment, seeking a complete understanding of the volume of documents flowing through your organisation and the costs associated with printing, sharing and updating them, resulting in setting the benchmark outlining what the current situation is.

2 INITIAL FLEET OPTIMISATION

Once Itec has assessed the existing print environment, we build a solution to best meet all your business needs, upgrading and consolidating your print hardware while considering the software and services that best enable employee mobility, data security, and efficient, streamlined document management.

3 REMOTE MONITORING & MANAGEMENT

We implement a strategy that will reduce print costs. You can choose to outsource the entire printer fleet to Itec or manage the environment yourself. In the second scenario, you would implement print management software, printer consolidation and other tactics with Itec's support, to reduce costs.

4 AUTOMATED SUPPLIES & SERVICE

Itec implements a solution to improve office efficiencies:

- Easy print management with alerts
- Automated supplies ordering
- Tracking printed pages, print behaviour and downtime
- Printer mapping
- Automatic counter reading

5 CONSOLIDATED BILLING

Customers receive a single invoice and have a single point of contact for all billing.

This streamlines the billing process and saves administrative time while improving service levels and turnaround time for the customer.

6 ONGOING FLEET OPTIMISATION

Once the solution has been implemented, the customer is able to monitor print costs and volumes on an ongoing basis to ensure that they are achieving the expected benefits.

Itec will work with you to keep your print environment running optimally.

BENEFITS OF MANAGED PRINT SERVICES

1. Standardisation of multifunctional devices.
2. Reduced capital cost as a result of fewer and "fit for purpose" deployed devices.
3. Pro-active management of retained current installed base towards agreed objectives.
4. Reduced, controlled stock holding of consumables.
5. Single procurement point from designated suppliers for non-inclusive consumables.
6. Adhere and reinforcement of print policy.
7. Ongoing change management and review of effectiveness.
8. Freeing up of skilled IT staff to focus on more strategic business initiatives.
9. Reduced energy consumption, with the baseline established in due diligence.
10. Set up of "Auto Power Off" functionality on all capable devices.

OUR SATISFIED CUSTOMERS

"Itec Tiyende was appointed as the successful bidder for Acquisition of PABX for Phase 2 of the PABX Project.

The execution of the project has met the overall milestones and assisted in the replacement of unserviceable PABX systems and equipment."

KR Vox, Director
Regional Support Service - ISM

"Itec Tiyende was contracted to deliver print and print managed services to the auditor-general of South Africa (AGSA).

We are pleased with the service rendered and confirm that the tendered products and services have been supplied and delivered at the required satisfaction of AGSA."

Sam Nkosi
Chief Information Officer

"Itec Tiyende was appointed as managed services partner for integrated print, copy, scan and fax at National Health Laboratory Services.

Itec has managed to execute the implementation of the project in an organised and satisfactory manner."

Corporate General Services Manager

"In executing the project, Itec Tiyende was able to meet all the set timeframes and to deliver on each milestone in accordance with the project plan."

Takalani Munyai
Administration Manager

Imagine having just one office technology service provider, one point of contact, one number to log a service call, one monthly invoice to administer - one trusted partner with one aim: deliver simpler, smarter solutions that improve your business efficiency.
