CYBERSECURITY SOLUTIONS

WHAT WE CAN ACHIEVE TOGETHER

A single point of contact for cost-effective, managed technology services.

Itec Tiyende is a dedicated leader in business solutions, helping to solve prevailing operational and technology challenges around systems integration and the digital transformation of your business. From Print, Unified Communications, Intelligent & Cybersecurity to Document Management and Software Solutions, Itec can assist you in future-proofing your business by helping prioritise the technology solutions most suited to your requirements and budget, while managing the operational implementation of these solutions as a monthly service with flexible finance options.

Itec Managed Business Services

Communications

The message is more important than the medium, especially when we have assessed your business to give you access to all the tools of communication you need. PABX, mobile, video conferencing, data calling and connectivity, whatever works for your business to get the message across.

Cloud

We can help you to run your business applications and hardware in the cloud. Since everything in the cloud is more connected, you can securely cross-reference and share information across different applications from any device, anywhere.

Intelligent Security

We can integrate security solutions into every part of your business so that you are more prepared for disaster recovery, business continuity, more aware of your employee activities and have a solid operational awareness of your technology.

Print Solutions

We can seamlessly integrate cloud-based digital services with your in-house ERP systems, saving a lot of time and money. This way you get all the benefits of systems that can talk to each other, without changing what you already have.

Cybersecurity

Our comprehensive range of cybersecurity solutions caters to both individual users and large enterprises alike. Tailored to meet your specific requirements, we offer highly effective managed detection and response services. Leveraging cutting-edge security technologies, our solutions provide real-time threat prevention across diverse environments including networks, clouds, and data centers.

Software

Our network-ready, cloud-based software is secure and easy to integrate with customisable solutions for intelligent information and workflow management, digital filing, archiving and disaster recovery, and auditable cost management.

Finance

Our in-house finance solutions offer customers flexible, affordable and accessible finance, managed by professional consultants who help to structure any deal simply, efficiently and cost effectively.

Our single source capability, together with our innovative, flexible approach and desire to please, are the reasons that our clients entrust their business technology solutions to us.

PRODUCT CATALOGUE INDEX

1. Communications _____ pg 4

CONNECTIVITY

- iLink Connectivity
- APN Connectivity

VOICE

- VoiceGate & VoiceGate Flex
- VoiceGate Contact Centre
- Mitel SME to Enterprise
- Mitel Handsets & Base-Station
- Mitel Unified Communications
- Supporting Peripheral Solutions

2. Intelligent Security _____ pg 13

- CCTV Surveillance
- Alarm Systems & Control Rooms
- Security Software Solutions
 - Lytehouse
 - timeTec
- Access Control and Time & Attendance
- Visitor Parking & Traffic Management
- Pedestrian Access Control

3. Cybersecurity _____ pg 20

- Fortinet
- Sophos

4. Cloud _____ pg 23

- Private, Public & Hybrid Business Cloud Solutions

5. Print Solutions _____ pg 25

- Printer Solutions

6. Software _____ pg 27

- Software
- Print Director

7. Finance _____ pg 29

- In-House Financing Solutions

CYBERSECURITY

Protect your confidential information & manage employee data access from anywhere.

Our comprehensive range of cybersecurity solutions caters to both individual users and large enterprises alike. Tailored to meet your specific requirements, we offer highly effective managed detection and response services. Leveraging cutting-edge security technologies, our solutions provide real-time threat prevention across diverse environments including networks, clouds, and data centers.

HOW IT WORKS

We consider security during all stages of our consultative process in order to meet compliance regulations and keep information secure, no matter where your employees are. Our

End-point & network protection

Itec Tiyende's integrated and cutting-edge cybersecurity solutions protect all connected devices. Advanced AI, cloud computing, and deep learning simplify and automate convergence and consolidation to provide comprehensive protection for all users, devices, and applications across all network edges.

By consolidating your protection under a single, synchronised solution

we can protect your company better, keep your data safe and provide better ROI by saving your business time and money. Our solutions include firewalls, intrusion prevention systems, secure SD-WAN and ethernet, and zero trust network access. We secure endpoints, networks, servers, email and provide cloud protection. Our solutions are all centrally managed for ease of access and efficiency.

Firewalls, IPS & Zero Trust Network Access

SD-WAN, LAN Switching & Wireless

Email Security & Central Network Security Management

Endpoint, Network, Cloud & Server Protection

Comprehensive cybersecurity protection for all users, devices and applications across all network edges.

Next Generation Firewall (NGFW) Intrusion Prevention System (IPS) Secure SD-WAN

- Ultra-fast security, end-to-end.
- Consistent real-time defence with FortiGuard Services.
- Excellent user experience with security processing units.
- Operational efficiency and automated workflows.

- Network-based virtual patching for business applications that are hard to patch or can't be patched.
- Accelerated FortiGuard IPS capabilities from the purpose-built content processor (CP9).
- Extended IPS to additional capabilities like SSL inspection (including TLS 1.3) to detect hidden Malware, Ransomware, and other HTTPS-borne attacks.
- End-to-end updates for dedicated IPS administration enabling migration from separate hardware to NGFW while preserving operations and compliance practices.

- Deliver superior quality of experience at any scale.
- Accelerate network and security convergence, and simplify WAN architecture.
- Orchestrate consistent network and security policies.
- Achieve operational efficiencies through automation, deep analytics, and self-healing.

LAN Switching & Wireless Zero Trust Network Access (ZTNA)

Secure Ethernet Switches:

- Rather than asking how to secure traditional Ethernet LANs, Fortinet takes a security-driven networking approach offering Ethernet as an extension of the security infrastructure through FortiSwitch and FortiLink. Features such as NAC are included with no additional licensing.

Wireless Lan (WLAN):

- Network IT demands more capability and reliable security from fewer components to save on cost and simplify the environment. Fortinet's Wireless LAN equipment leverages Security-driven Networking to provide secure wireless access for the enterprise LAN edge.

- Fortinet ZTNA improves secure access to applications anywhere, for remote users.
- ZTNA is a capability within Zero Trust Access (ZTA) that controls access to applications. It extends the principles of ZTA to verify users and devices before every application session. ZTNA confirms that they meet the organisation's policy to access that application.

Cloud-native and AI-enhanced solutions that secure endpoints and networks against cybercriminal tactics and techniques.

Endpoint Protection

- Managed Threat Response
- Endpoint Detection & Responses
- Stop Ransomware in its Tracks
- Deep learning Neural Network
- Disk Encryption
- Intuitive
- Compliance
- Single Console

Network Protection

- Expose Hidden Risks & Stop Unknown Threats
- Isolate Infected Systems & Threat Discovery
- Secure Remote Workers
- All-In-One Protection
- Logging & Reporting
- Flexible Deployment & Easy Management
- Synchronised Connectivity
- Lightning Performance
- Instant Visibility
- Granular Controls

Cloud Protection

- Multi-Cloud Visibility
- Identify & Respond to Cloud Security Incidents
- Manage Permissions
- Optimise Costs & Improve Security

Server Protection

- Stop Advanced Malware
- Catch Evasive Threats
- Deny Hackers
- Block Server Exploits

Central Management

- Manage all your Products
- Intuitive Dashboard
- Finds Threats Faster
- Simplify Investigation
- Minimise Threat Impact

Email

- Protection from Spam & Malware
- Responds to Cyber Threats Faster
- Compromised Mailbox Detection
- Prevents Data Loss
- Block Phishing Imposters
