# WHAT WE CAN ACHIEVE TOGETHER

A single point of contact for cost-effective, managed technology services.

Itec Tiyende is a dedicated leader in business solutions, helping to solve prevailing operational and technology challenges around systems integration and the digital transformation of your business. From Print, Unified Communications, Intelligent & Cybersecurity to Document Management and Software Solutions, Itec can assist you in future-proofing your business by helping prioritise the technology solutions most suited to your requirements and budget, while managing the operational implementation of these solutions as a monthly service with flexible finance options.

## Itec Managed Business Services

### Communications

The message is more important than the medium, especially when we have assessed your business to give you access to all the tools of communication you need. PABX, mobile, video conferencing, data calling and connectivity, whatever works for your business to get the message across.

### Cloud

We can help you to run your business applications and hardware in the cloud. Since everything in the cloud is more connected, you can securely cross-reference and share information across different applications from any device, anywhere.

### Intelligent Security

We can integrate security solutions into every part of your business so that you are more prepared for disaster recovery, business continuity, more aware of your employee activities and have a solid operational awareness of your technology.

### Print Solutions

We can seamlessly integrate cloud-based digital services with your in-house ERP systems, saving a lot of time and money. This way you get all the benefits of systems that can talk to each other, without changing what you already have.

### Cybersecurity

Our comprehensive range of cybersecurity solutions caters to both individual users and large enterprises alike. Tailored to meet your specific requirements, we offer highly effective managed detection and response services. Leveraging cutting-edge security technologies, our solutions provide real-time threat prevention across diverse environments including networks, clouds, and data centers.

### Software

Our network-ready, cloud-based software is secure and easy to integrate with customisable solutions for intelligent information and workflow management, digital filing, archiving and disaster recovery, and auditable cost management.

### Finance

Our in-house finance solutions offer customers flexible, affordable and accessible finance, managed by professional consultants who help to structure any deal simply, efficiently and cost effectively.

Our single source capability, together with our innovative, flexible approach and desire to please, are the reasons that our clients entrust their business technology solutions to us.
