PRINT SOLUTIONS

WHAT WE CAN ACHIEVE TOGETHER

A single point of contact for cost-effective, managed technology services.

Itec Tiyende is a dedicated leader in business solutions, helping to solve prevailing operational and technology challenges around systems integration and the digital transformation of your business. From Print, Unified Communications, Intelligent & Cybersecurity to Document Management and Software Solutions, Itec can assist you in future-proofing your business by helping prioritise the technology solutions most suited to your requirements and budget, while managing the operational implementation of these solutions as a monthly service with flexible finance options.

Itec Managed Business Services

Communications

The message is more important than the medium, especially when we have assessed your business to give you access to all the tools of communication you need. PABX, mobile, video conferencing, data calling and connectivity, whatever works for your business to get the message across.

Intelligent Security

We can integrate security solutions into every part of your business so that you are more prepared for disaster recovery, business continuity, more aware of your employee activities and have a solid operational awareness of your technology.

Cybersecurity

Our comprehensive range of cybersecurity solutions caters to both individual users and large enterprises alike. Tailored to meet your specific requirements, we offer highly effective managed detection and response services. Leveraging cutting-edge security technologies, our solutions provide real-time threat prevention across diverse environments including networks, clouds, and data centers.

Cloud

We can help you to run your business applications and hardware in the cloud. Since everything in the cloud is more connected, you can securely cross-reference and share information across different applications from any device, anywhere.

Print Solutions

We can seamlessly integrate cloud-based digital services with your in-house ERP systems, saving a lot of time and money. This way you get all the benefits of systems that can talk to each other, without changing what you already have.

Software

Our network-ready, cloud-based software is secure and easy to integrate with customisable solutions for intelligent information and workflow management, digital filing, archiving and disaster recovery, and auditable cost management.

Finance

Our in-house finance solutions offer customers flexible, affordable and accessible finance, managed by professional consultants who help to structure any deal simply, efficiently and cost effectively.

Our single source capability, together with our innovative, flexible approach and desire to please, are the reasons that our clients entrust their business technology solutions to us.

PRINT SOLUTIONS

Print and store information intelligently for easy access and collaboration.

We can seamlessly integrate cloud-based digital services with your in-house ERP systems, saving a lot of time and money. You can digitise documents using your multifunction printer which enables you to transform your business with a good data management system.

Streamline your Printing Operations

Document Management oversees the intelligent capturing and management of your organisation's data and information. A good data management system will transform your business, helping you find great efficiencies as you treat your data smartly.

A hybrid approach of paper and digital documentation allows for the seamless flow of information through

an organisation. Intelligent indexing and well-designed archival systems reduce costs and time searching for information, and give your employees mobile access to securely encrypted business information when they need it.

Smart document management is also essential for risk management, disaster recovery and business continuity.

HOW IT WORKS

Itec document management specialists evaluate the flow of information into, through, and out of your business, with special focus on security, compliance and redundancies.

With a clear picture of your current systems, we build a document management strategy that gives your employees secure and quick access to information, with a risk management plan that ensures business continuity should a disaster occur.

Feed data into CRM and EPS systems.

Integrate systems data for a single truth.

Ensure data compliance with current regulations.

Automate core business functions.

A4 Mono Single Function A4 Mono MFP A4 Colour Single Function A4 Colour MFP

Up to 66 ppm

The Lexmark Mono Single Function range of devices is ideal for midsize to large workgroups offering rich features including multiple finishing options.

Up to 66 ppm

The A4 Mono MFP range of devices brings powerful productivity tools, cost-saving workflow solutions and a large, intuitive colour touchscreen interface for amazingly simple access to a rich range of features. This includes duplex scanning, advanced copying and easy user authorisation for enhanced security.

Up to 47 ppm

The Lexmark Colour Laser Printers are machines that combine the functions of a workgroup printer with the simplicity of a personal output device. They have integrated advanced security settings and can print up to 47 pages per minute in both black and white, as well as colour. They also come with the function of duplex (2-sided) printing.

Up to 47 ppm

For high-quality, cost-effective colour that never slows you down, the Itec colour multifunction printer combines, standard wireless connectivity, web browser and touch-and-swipe control convenience in compact dimensions to fit any office space. Simple networking for mixed multifunction printing and desktop environments.

A3 Mono MFP A3 Colour MFP Production Printers

Up to 95 ppm

Offering a smart combination of features, technologies and investment for a competitive edge in business production printing. A modular system starting with entry-level hardware costs plus it features energy star awarded green technology.

Up to 75 ppm

The Itec A3 Colour MFP range offers high-speed output printing and scanning to help improve your productivity. It also features advanced system integration options and a built-in print system with a "touch and swipe" interface for customisable operation.

Up to 136 ppm

Adds power, performance and simplicity to any production print application – up to 136 ppm print/copy output, real-time image density and colour density control sensors, and digital colour imaging to rival offset printers at a fraction of the cost.
